

Greenwood Manor sponsors an Alzheimer's support group the first Thursday of each month at 12:30 pm, held on site in the facility's media room. The group is free and open to the general public. Topics of discussion include:

- Basic information about the types of dementia
- Changes that occur in thinking, mood and behaviors as the disease progresses
- How the disease affects the ability to take care of personal body functions
- How the disease affects relationships
- How to provide needed care for someone with dementia

The group meets for about one hour. It is co-sponsored by Hospice of the Miami Valley.

Guest speakers attend to add more information about the disease and services offered at home.
